SUBJECT INDEX

ABDOMEN, Drainage in surgery of, 54; anatomical and clinical characteristics of subcutaneous injuries of viscera of, 119; changes in chloride metabolism in lesions of, 123; retroperitoneal lumbar (paranephric) abscess from muscle strain, 132; spontaneous idiopathic hæmopneumothorax with features resembling acute surgical, 198; injuries of, in children, 327; hæmorrhage from deep epigastric artery into rectus abdominis, 365; simple tube drainage of stomach after operations on, 468; spinal anæsthesia for operations on upper and lower, 469; thymoma simulating tumor of, 520

Abortion, Treatment of incomplete early, 129; artificial, as biological trauma and its sequelæ, 218; ulcer of uterine mucosa following, 538

Abscess, Retroperitoneal lumbar (paranephric), resulting from muscle strain, 132; roentgen-ray observations in acute perinephritis, 223; roentgenographic evidence of perinephritic, 223; acute subpectoral, 241; perinephric, 340. *See also* names of organs

Acoustic method, Evolution of, 96

Actinomycosis, Hæmatogenic, of long bones, 240

Adenoidectomy, Aspiration of blood during, under ether anæsthesia, 518

Adrenal, *See* Suprarenal

Albuminuria, Results of, during pregnancy, 127

Ames spectacle device for treatment of cyclophoria, 508

Amino acids in blood during pregnancy, 335

Anæmia, Splenectomy in parasitic and infectious, 31; pathology and surgery of Gaucher's disease, 31; correlation of cholecystographic, clinical, and laboratory findings in pernicious, 435

Anaerobes, Present status of investigation of, and its significance for surgery, 378

Anæsthesia, First surgical operation under, induced with ether, 1; colonic, in operations on brain and spinal cord, 13; Porro cæsarean sections under local infiltration, 38; aspiration of blood into larynx and trachea during tonsillectomy under local, 195; epidural caudal, in prostatic surgery, 230; caudal epidural in perineal surgery of genito-urinary tract, 239; observations on spinal, 261; brachial plexus, 374; spinal, for upper and lower abdominal operations, 469; aspiration of blood during tonsillectomy and adenoidectomy under ether, 518; spinal, in eclampsia, 537; in obstetrics, 539

Aneurism, Opening anterior mediastinum for attacks of stenocardia from, of aorta, 51; treatment of arteriovenous, of internal carotid artery in cavernous sinus, 141; arteriovenous, 253, 366; surgical treatment of splenic, 254; resection and reconstructive arteriorrhaphy for brachial arteriovenous, 254; popliteal, complicated by gangrene, 465; of bifurcation of carotid treated by resection of combined sac and end-to-end anastomosis of external and internal carotids, 552

Angina, Pathogenesis of suppurations in parapharyngeal space following acute, with erosion of blood vessels, 99; systemic manifestations of Vincent's infection, 190; Vincent's infection, 190, 414; anatomical and clinical study of Ludwig's, 511

Angina pectoris, Opening anterior mediastinum for attacks of stenocardia from aneurism of aorta, 51

Angiomata, Treatment of cavernous, covered with healthy skin, 141

Ankle, Fracture of lower articular surface of tibia in fracture dislocation of, 250; injuries of foot and, 357

Antiperistalsis, Movements of duodenal contents with reference to, and pyloric regurgitation, 316

Antrum of Highmore, Degenerative changes in lining membrane of maxillary sinus and their relation to systemic infection, 97

Aorta, Opening anterior mediastinum for attacks of stenocardia from aneurism of, 51; method for gradual occlusion of, 142; coarctation of, 364

Appendectomy, Postoperative causes of death, 259

Appendicitis, 319; drainage in abdominal surgery, 54; treatment of acute, 205; chronic, in children, 206; treatment of perforating, in advanced pregnancy, 336; ovarian hæmorrhage simulating acute, 441; death roll of, due to absence of classical symptoms, 525

Aqueous humor, Experimental transmission of arsenic to, 94

Arm, Influence of lymphangitis of hand and upper extremity on recurrence of cancer of breast, 18

Arrhythmia, Physiological, of fetal heart, 538

Arsenic, Experimental transmission of, to aqueous humor, 94

Arteries, Obliteration of, of limbs particularly in young persons, 52; congenital arteriovenous communications, 253; arteriovenous aneurisms, 253, 366; arterial embolectomy, 255; effect on basal metabolism of ligating lower extremities, 414; craniocerebral arteriography, 417; extensive resection of, in obliterating arteritis, 552

Arteriography, Craniocerebral, 417

Arteriorrhaphy, Resection and reconstructive, for brachial arteriovenous aneurism, 254

Artery, Treatment of arteriovenous aneurism of internal carotid, in cavernous sinus, 141; origin of necrosis and connective tissue hyperplasia after ligation of hepatic, 148; surgical treatment of aneurism of splenic, 254; Valentine Mott and ligation of innominate, 291; hæmorrhage from deep epigastric, into rectus abdominis, 365; aneurism of popliteal, complicated by gangrene, 465; aneurism of bifurcation of carotid, treated by resection of combined sac and end-to-end anastomosis of external and internal carotids, 552

Arthritis, 354; pyæmia associated with acute meningitis and, due to Pfeiffer's bacillus, 53; care of feet in chronic, 358; medical and surgical treatment of, 361; correlation of cholecystographic examinations with clinical and laboratory findings in infectious, 435; mechanism and treatment of hydrarthrosis and traumatic, 451; purulent, 452. *See* also names of joints

"Artrorise" of foot, 358

Ascaridiasis, Roentgen examination of small intestine in, 523

Ascites, Problems in treatment of patients with, 438

Atelectasis, Obstructive massive, 18; postoperative massive, 372, 467, 468; bronchoscopic observations on massive collapse of lungs, 468

Audiometer as device for determining quantitatively hearing function in each ear separately, 97

Audiometry, Monochord in upper limit determinations as adjunct to, 96; evolution of acoustic method, 96; rationale of tuning fork tests, 96; methods of estimating certain alterations in middle ear by quantitative tests of hearing, 186

Auditory ossicles, Histology and pathology of articulation of, 413

BACILLUS welchii, Therapeutic value of antitoxin for, 555
Backache, Report of Committee of Clinical Orthopedic Society on, 242; low back pain, 546
Bacteria, Power of human blood to kill, and methods of altering it, 145; present status of anaerobe investigation and its significance in surgery, 378; in uterine cavity during pregnancy, 443
Balfour operation for gastric ulcer, 427
Barium meal, Correlation of cholecystography and, 435
Basal metabolism, Effect on, of ligating lower extremities, 414
Basedow's disease, *See* Goiter
Bellevue Hospital, Report of maternity service of, 221
Bile, Results of accumulations of, around liver, 434
Bile duct, Gall-bladder function after division of common duct and transplantation of proximal segment, 116; mechanism of emptying of gall bladder and common duct, 116; choledochus cyst, 117; obstruction of cystic duct of catarrhal variety, 117; carcinoma of cystic duct, 209; clinical signs of incarcerated but mobile stone in common duct without icterus, 209; method of restoring loss of substance of common duct, 325; prolapse of common bile duct, 325
Bile ducts, Effects of obstruction of, 29; changes in bile tract after cholecystectomy, 29; idiopathic cysts of biliary passages, 324; hydatid cyst of liver opening into biliary passages, 527; parasitosis of bile passages and gall bladder, 528
Biliary tract, Drainage in abdominal surgery, 54; postoperative causes of death, 259; effect of Vitamin D on porotic osteomalacia following biliary fistula, 266; development of roentgenological examination of, 435
Birth injury, Etiological importance of, in children with congenital spastic paraplegia, 16
Bladder, Inguinal hernia of, 24; cauda equina syndromes and urinary complications, 41; cystalgia with clear urine in women, 44; treatment of vesical tumors by physical agents, 44, 544; regeneration of, following resection, 45; end-results of radium removal of carcinoma of, 45; principles governing local treatment of carcinoma, 45; petrographic sections of urinary calculi and determination of nature of their crystalline layers by crystallography, 47; subcutaneous injuries of abdominal viscera, 119; tumors of, 134; neoplasm of trigone vesicæ, 134; treatment of tuberculosis of, and epididymis, 134; J. Marion Sims and vesicovaginal fistula, 173; pyelocystitis in childhood, 226; normal vesical pressure, 228; lymphatics of, 230; production of diverticula of, in dog, 230; operation for diverticulum of, 230; rhabdomyosarcoma of, with metastases, 231; carcinoma of prostate and, 234; practicability of modern cystoscope in urology of infancy and childhood, 236; successful Schauta-Wertheim operation in functional incontinence of urine and modifications in its technique, 328; extraperitoneal re-implantation of ureter into, 344; multiple fractures of pelvis with rupture of, 345; perivesical suppuration, 345; rupture of, in child, 346; diverticula of, 230, 346, 347; incrusted ulcer of, as late sequela of irradiation therapy, 347; primary tuberculosis of, 347; radium therapy for cancer of, 348; tumors of, 348; total extirpation of, in consequence of carcinoma, 348; urinary disturbances in women, 350; urological complications following fracture of spine, 351; gangrenous cystitis, 449; fistulization of pyosalpinx into, 532; radium treatment of vesical carcinoma, 44, 544
Blepharoptosis, Correction of ptosis by fascia lata hammock, 296; modified Motais operation for, 508
Blood, Changes in, in chronic duodenal obstruction, 25; changes in chlorides of, in abdominal lesions, 123; fluctuation in sugar of, during eclampsia and its relation to convulsions, 128; bactericidal power of human, and methods of altering it, 145; changes in, during course of treatment of malignant disease by lead, 256; amino acids in, during pregnancy, 335; hæmolysis in spite of grouping of, 368; absorption of, from peritoneal cavity, 466; aspiration of, during tonsillectomy and adenoidectomy under ether anæsthesia, 518; Bordet-Wassermann reaction in, of umbilical cord, 541
Blood transfusion, Indication for, 142; subcutaneous, in children, 143; hæmolysis in spite of blood grouping, 368; fatal suppression of urine caused by latent hæmagglutinins, 369
Blood vessels, Pathogenesis of suppurations in parapharyngeal space following acute angina with erosion of, 99; rôle of aberrant, in production of hydronephrosis, 133, 224; postoperative complications, 371; of menisci, 455; sounding of, 551. *See also* Arteries, Veins
Bobbs, John Stough, and lithotomy of gall bladder, 409
Bone, Aseptic necrosis of, 353
Bones, Hæmatogenic actinomycosis of long, 240; fractures of facial, involving nasal accessory sinuses, 294; blue sclerotics and brittle, in mother and child, 298; Hodgkin's disease of, 353; treatment of chronic fistulous suppuration of marrow of, 360; autoplastic transplantation of tissues into marrow cavities of, 425. *See also* names of bones and bone conditions
Bordet-Wassermann test in blood of umbilical cord, 541
Brachial plexus, Anæsthesia of, 374
Brain, Management of craniocerebral injuries, 3; colonic anæsthesia in operations on, 13; abscess of, in infants under twelve months of age, 13; new methods of surgical access to, 13; roentgen therapy of glioma of, 14; removal of right cerebral hemisphere for certain tumors with hemiplegia, 15; histology of virus infections of central nervous system, 16; intracranial hæmorrhage of newborn and its relation to hæmorrhagis diathesis, 39; fundamental principles and results of surgery of, 103; pathology, diagnosis, and treatment of abscess of, 103; head injuries in children, 183; roentgenographic examination of base of cranium in presence of basal tumors, 191; localization of cerebral tumors by sinusovenous lipiodol encephalography, 191; symptoms, diagnosis, and treatment of acute cranial and intracranial injuries, 191; clinical and anatomical observations on tumors of, 192; cerebrospinal fluid (lumbar) in tumor of, 305; combined ventricular and lumbar puncture in diagnosis of tumor of, 305; results of treatment of wounds of, by tamponade and lumbar puncture, 305; roentgen therapy of tumors of, with special reference to astrocytomata, 306; new technique for arterial encephalography for localization of tumors of, 417; cerebral gliomata, 417; craniocerebral arteriography, 417; tumors of frontal lobe of, 418; radiation treatment of glioma of, 418; epilepsy following revolver wound twenty-five years ago with spontaneous disappearance of all symptoms ten years ago in spite of presence of bullet in, 513; cerebrospinal fluid of premature infants with special reference to intracranial hæmorrhage and pigmentation, 513; brain-flap in clinical surgery, 514
Branchial anomalies and neoplasms 8
Breast, Relation between microscopic findings and frequency of recurrence of cancer of, 18; influence of lymphangitis of hand and upper extremity on precipitation of recurrences of cancer of, 18; extensive cuta-

neous recurrence of cancer of, following homolateral grippal pleuropneumonia, 18; incidence, location, and prognosis of cancer of, 193; neglected points in pathology of cancer of, 193; treatment of cancer of, 193; surgery and X-rays in treatment of carcinoma of, 193; postoperative prognosis of cancer of, with reference to rapidity of progress of growth previous to time of operation, 193; position of histology in prognosis of carcinoma of, 193; radium treatment of primary carcinoma of, 420; results in irradiation of cancer of, 420; radiology and surgery in cancer of 420; development of modern operation for cancer of, 422; end-results in amputation of, for cancer, 422; principles of surgery of, illustrated by sections showing approximately entire, 422; malignant tumors of, 422; surgery of vegetative intracanalicular tumors of, 517

Bronchi, Introduction of iodized oil into, by "passive" method, 18; operative cure of cyst of, 307; surgical importance of X-ray examination of trachea and, 423; tracheobronchial tree in children with reference to blood aspirated during tonsillectomy and adenoidectomy under ether anæsthesia, 518; rupture of amœbic abscess of liver into, 526

Bronchography, Introduction of iodized oil into tracheobronchial tree by "passive" method, 18; surgical importance of X-ray examination of trachea and bronchi, 423

Bronchoscopy, Bronchoscopical aspect of suppuration of lung, 20; in postoperative atelectasis, 468

Buerger's disease, 368; obliteration of arteries of limbs, particularly in young persons, 52; sympathectomy in obliterating arteritis, 104; prognostic value of oscillometer in thrombo-angiitis obliterans, 142; thrombo-angiitis obliterans, 551; extensive resection of arteries in treatment of obliterating arteritis, 552

Burns, Late treatment of, 259

CÆCUM, Results of resection in ileocæcal tuberculosis, 113; ileocæcal enterocystoma producing partial intussusception, 317

Cæsarean section, Place of vaginal, in obstetrics, 37; Porro, under local infiltration anæsthesia, 38; vaginal, in placenta prævia, 334; when to do, for pelvic indication, 445

Calcaneum, Treatment of severe injuries of leg by traction with Steinmann pin through os calcis, 251; exostoses occurring on os calcis as result of gonococcal infection, 547

Calcium, Danger of intravenous therapy with, 256

Calcium chloride, Effect of, on delayed healing, 370

Cancer, Radium in treatment of, 58, 262; new and rapid method of examining tissue microscopically for malignancy, 61; reasons for failures with irradiation therapy of carcinoma, 124; blood changes during course of treatment of malignant disease with lead, 256; results of treatment of carcinoma and relationships of age to results of treatment and curative dose of irradiation, 332; metastases of, on basis of autopsy material from six Moscow hospitals, 377; saturation method of radiation therapy in deep-seated malignant disease, 556; is not a simple mendelian recessive, 558; chemotherapy in malignant disease, 558; lead in treatment of malignant disease, 558. *See also* names of organs

Carcinoma, *See* Cancer

Carotid artery, Treatment of arteriovenous aneurism of internal, in cavernous sinus, 141; aneurism of bifurcation of, treated by resection of combined sac and end-to-end anastomosis of external and internal carotids, 552

Carotid gland, Tumors of, 9, 303

Cataract, Warner's operation for, 299

Cauda equina, Syndromes of, and urinary complications, 41; new signs suggestive of tumor of, 192

Cavernous sinus, Treatment of arteriovenous aneurism of internal carotid artery in, 141; rupture of, following fracture of base of skull with late recurrent epistaxis, 506

Cerebrospinal fluid, In brain tumor, 305; of premature infants with reference to intracranial hæmorrhage and pigmentation, 513

Cervix uteri. *See* Uterus

Chest, Resection of wall of, 17; losses of skin on, 54; late results inpresence of bullets within, 108; mediastinum as factor in surgery of, 198; acute subpectoral abscess, 241; use of visor flaps from, in plastic operations on neck, chin, and lip, 259; exploration of fistulæ and wounds of, by means of lipiodol, 517

Chin, Use of visor flaps from chest in plastic operations on, 259

Chloride metabolism, Changes in, in abdominal lesions, 123

Chloroma, With ocular lesions, 295; in children, 377

Cholagogues, Cholecystographic studies after administration of popular, 208

Cholecystectomy, Changes in bile tract after, 29; accidents of, and means of avoiding them, 528

Cholecystography, Simultaneous, and determination of hepatic function, 207; failure of filling in, in presence of acute pyloric pathology, 208; after administration of popular cholagogues, 208; normal response in, 435; in late months of pregnancy, 435; roentgenological diagnosis of gall-bladder disease, 435; some pseudovesicular shadows and other pitfalls in gall-bladder roentgenology, 435; correlation of, and barium meal, 435; correlation of findings of, and clinical and laboratory findings with reference to pernicious anæmia, myocardial degeneration, infectious arthritis, and gastric acid content, 435; development of roentgenological examination of biliary tract, 435; routine intravenous administration of sodium tetraiodophenolphthalein in gall-bladder diagnosis, 435; common errors in, 527

Choledochus, *See* Bile Duct

Cholelithiasis, *See* Gall stones

Cholesterin, Significance of, in formation of gall stones, 29

Ciliary body, Significance of ciliary epithelium in absorption of vitreous hæmorrhages, 185

Circulation, Intra-arterial injections of sodium iodide in determining condition of, in extremities, 364; effect on basal metabolism of ligating lower extremities, 414

Circulatory system, Postoperative complications, 371

Clavicle, Primary sarcoma of, 138; simple fixation dressing for fractures of, 139

Cleft palate, 510; harelip and, 189

Club-foot, Nature and treatment of, 244

Cœliac ganglion, Relief of intestinal paralysis by injections of nicotin into, 430

Colitis, Chronic pericolitis, 22; diet in treatment of chronic, 113; treatment of ulcerative, 204; ulcerative, 317

Colon, Surgery of large intestine, 114; gastrocolic fistula 201, 313; gastrocolic fistula from roentgenological viewpoint, 313; X-ray diagnosis of cancer of, 318; precancerous changes in rectum and, 320; transplantation of ureters into large bowel, 345; diverticula of, 433, 523; value of roentgen ray in diagnosis of cancer of, 525. *See also* Gastro-intestinal tract, Intestines, and parts of colon

Colostomy, Small gut obstruction around, 315; new type of permanent, 318

Colpotomy, Intravaginal prolapse of tube after, 212

Common duct, *See* Bile duct
Conjunctiva, Tuberculosis of, 509
Conjunctivoplasty, Technique of, 412
Cornea, Bilateral cysts of, 298
Coxitis, New symptom of, especially valuable for early diagnosis, 138
Craniotomy, Colonic anæsthesia for, 13
Cranium, *See* Skull
Crucial ligament, Rupture of antero-external, repaired by Hey-Groves operation, 246
Crystalography, Petrographic sections of urinary calculi and determination of nature of their crystalline layers by, 47
Cyclophoria, Ames spectacle device for treatment of, 508
Cystalgia with clear urine in women, 44
Cystic duct, *See* Bile duct
Cystitis, Gangrenous, 449; alkaline incrusted, 544
Cystocele, Genital displacements, 126
Cystoscope, Practicability of modern, in urology of infancy and childhood, 236
Cystostomy, Rupture of perineobulbar urethra in child treated by circular urethrorrhaphy and infrapubic, 232
Cysts, *See* names of organs

DACRYOCYSTITIS, Gangrenous peridacryocystitis, 298; method of dilating lachrymal duct by rapid dilatation with sea-tangle probes, 412
Deaf-mutism with bilateral lesion of auditory sensory areas, 187
Deafness, Notes on paracusis willisii from Ferens Institute of Otolaryngology, 5; constitutional, 413
Death, Postoperative causes of, 259
Deformity, Tensor fasciæ femoris as cause of, 547
Diabetes, During pregnancy treated with insulin, 443; and pregnancy, 443
Diaphragm, Elevation of, 119; interposition of abdominal viscera between, and liver followed by sudden death from incarceration of omentum, 123; non-traumatic lesions of, in infancy and childhood, 210
Diathermy, For bladder tumors, 134; for cancer of tongue, 189; conduction of high-frequency current through living cell, 557
Diet in treatment of chronic ulcerative colitis, 113
Disease, Pathology and surgery of Gaucher's, 31; splenectomy in Gaucher's, 31; control of venereal, 48; Koehler's, 49; Raynaud's, as hyperadrenalinæmia, 147; Paget's, of glans penis, 232; Kuemmell's, 241; Hodgkin's, of bones, 353; Buerger's, 52, 104, 142, 368, 551, 552; active movement in treatment of, 376; Larsen-Johansson's, of patella, 456; diagnosis and treatment of Ménière's, 509
Dislocations, Living suture grafts in repair of fractures and, 362; principle of active movement in treatment of injury and disease, 376. *See also* names of bones and joints
Dolichocolon, Volvulos of iliac, 27
Donovan body of granuloma inguinale, 378
Drainage, In abdominal surgery, 54; in acute peritonitis, 522; surgical, 555
Duct, Rupture of thoracic, relieved by operation, 258; dilatation of lachrymal, with sea-tangle probes, 412
Duodenum, Changes in blood and other pathological changes in chronic obstruction of, 25; chronic ulcer of, 26; spontaneous pneumoperitoneum from fissure in ulcer of, 26; roentgen diagnosis of co-existence of ulcer of stomach and, 26; myoma of, 27; etiology of round ulcer of, 111; etiology, symptoms, signs, and results of treatment in ulcer of, 199; intensive alkaline treatment of ulcer of, 200; selection of cases of ulcer of, for medical or surgical treatment, 200; surgical consideration of ulcer of, 200; debatable aspects of surgery of ulcer of, 201; stenosis of, below ampulla of Vater caused by root of mesentery, 204; pre-operative treatment of complications of disease of, 312; end-results of radical operation for ulcer of, 313; absorption of histamine from obstructed bowel, 314; movements of contents of, with reference to antiperistalsis and pyloric regurgitation, 316; rupture of spleen and ulcer of, 326; series of operations on, 427; late results in perforated ulcer of, 427; treatment of chronic ileus of, 432; diverticulum of, with repeated attacks of jaundice, 432; ulcer of, 432
Dura, Invasion of skull by tumors of, 506
Dysentery, Sigmoidoscopic appearances of, of tropical origin, 115

EAR, Postauricular œdema due to acute infections, 4; posterior (mastoid) drainage in acute suppuration of middle, 5, 187; recent clinical observations on involvement of blood stream in otitic disease, 95; otitis sepsis, 95; fibroma arising from jugular bulb and invading middle, and external auditory canal, 186; methods of estimating certain alterations in middle, by quantitative tests of hearing, 186; deaf-mutism with bilateral lesion of auditory sensory areas, 187; new histopathological findings in, in lues, 299; otitic thrombophlebitis, 300; histology and pathology of articulation of auditory ossicles, 413
Eclampsia, Fluctuation in blood sugar during, and its relation to convulsions, 128; spinal anæsthesia in treatment of, 537; standard of results in treatment of, 537; treatment of, by telephone consultation, 537; results of treatment of, in obstetrical clinic of Karolin Institute of Stockholm, 537
Eclampsism, Results of treatment of, in obstetrical clinic of Karolin Institute of Stockholm, 537
Electricity, Principles in treatment of persons shocked by, 558
Electrocoagulation, For bladder tumors, 44, 134, 348; principles governing local treatment of carcinoma of bladder, 45; treatment of prostatic hypertrophy by intra-ureteral, 136
Embolectomy, 255; arterial, 255
Embolism, Idiopathic liver abscess and air, by way of liver, 28; increase in mortality from thromboses and pulmonary, 51; postoperative, 371; air, of retinal vessels, 412; thrombosis and, 463
Empyema, Obliterative operations for massive, 196; clinical and roentgenological course of purulent tuberculous, treated by repeated aspirations and injection of gomenol, 425; suction in treatment of, 519
Encephalitis, Histology of virus infections of central nervous system, 16; pregnancy and epidemic, 216; epidemic, in association with pregnancy, labor, and puerperium, 536
Encephalography, Sinusovenous lipiodol, 191; new technique for arterial, for localization of brain tumors, 417
Endocarditis, Subacute, complicated by metastatic ophthalmia and meningitis, 295
Endocervicitis, Management of chronic, 125
Endometriomata of laparotomy scars, 213
Endometriosis, 34
Endometritis, Anatomy and symptomatology of "true," 328
Endometrium, Menstrual fistulæ of postoperative and endometrial origin, 214
Enterococcus, Finding of, in extirpated gall bladders, 324
Enterostomy in obstruction and peritonitis, 314
Enuresis, Etiology and treatment of, 236

Epididymis, Treatment of tuberculosis of, 48, 134, 233, 348; treatment of genital tuberculosis in male, 48, 233, 348
Epididymitis, Surgical pathology of, 545
Epilepsy following revolver wound twenty-five years ago with spontaneous disappearance of all symptoms ten years ago in spite of presence of bullet in brain, 513
Epiploitis, Chronic, 23
Epistaxis, Late recurrent, following rupture of cavernous sinus in fracture of base of skull, 506
Epitrochlea, Operative treatment of detachment of, 247
Epulis, Radium treatment of, 141
Erysipelas, Treatment of, with antitoxin, 374; serum treatment of, 468
Erythrocytes, Correction of sedimentation test for effect of cell-volume percentage (hæmoglobin) and normal limits of sedimentation test, 466
Ether, First surgical operation performed under anæsthesia induced with, 1
Ethmoid bone, Surgical approach to, 188
Ethmoid sinuses, Further observations on ethmoid problem, 97; gross and microscopic pathology in external frontal ethmosphenoid operations, 301
Exophthalmic goiter, *See* Goiter
Exostoses, Multiple osteogenic, 546
Eye, Movements of, in reading, 91; methods of recording movements of, 91; transmission of arsenic to aqueous humor, 94; curative value of aspiration of vitreous, 94; factors controlling intra-ocular pressure, 184; chloroma with ocular lesions, 295; photomicrography of living, 295; examination of fundus oculi by light of limited spectral range, 299; ultraviolet light in treatment of ophthalmic disease, 508; fundus conditions requiring differentiation from intra-ocular tumor, 509
Eyelids, Plastic correction of, 294; correction of ptosis by fascia lata hammock, 296; radiation therapy of cancers of orbitopalpebral region, 297; syringocystoma of, 297

FACE, First operation under ether anæsthesia for removal of tumor of, 1; losses of skin on, 54; fractures of bones of, involving nasal accessory sinuses, 294
Face presentation, Recurrent, 130
Facial bones, Fractures of, involving nasal accessory sinuses, 294
Facial paralysis, Operation of Leriche for traumatic peripheral, in comparison with other operative procedures, 15; peripheral, 514
Fallopian tube, Intravaginal prolapse of tube after colpotomy, 212; parovarian cyst with torsion of, in ninth month of pregnancy, 219; parovarian cyst with torsion of, during puerperium, 221; torsion of healthy uterine adnexa in strangulated inguinal hernia, 310; roentgen study of contractility of uterus and, 531; perforation and rupture of pyosalpinx into peritoneal cavity, 532; fistulization of pyosalpinx into bladder, 532; lighting up of latent adnexal infections by intra-uterine treatments or traumatisms, 532; follicular salpingitis an important factor in etiology of ectopic gestation, 536
Fats, Relationship of gall-bladder emptying to ingested, 435
Femur, Pathology and treatment of acute epiphysitis at upper end of, 49 congenital absence of, 243; treatment of fracture of, 248; impacted medial fractures of neck of, 248; fractured, 363; treatment of fractures of neck of, by double leg casts in fixed traction and triangle truss support, 460; treatment of fractures of, with suspension apparatus taking ischium of sound side as point of countertraction, 461; fractures of upper end of, 549
Fetus, Unusual finding simulating ballottement of head of, 333; intra-uterine death of, from true knot in umbilical cord, 335; meningeal hæmorrhage in, of four to five months, 443; physiological arrhythmia of heart of, 538
Fibula, Treatment of severe injuries of leg by traction with Steinmann pin through os calcis, 251; transplantation of entire, to replace tibia, 362
Finger nails, Treatment for split, 361
Fistula, J.
